

READY THEATRE SYSTEMS

About

RTS is your point-of-sale solution. We provide ticketing and concessions software for every movie theatre. In addition, RTS now provides your digital signage package as well.

RTS was developed in a theatre so we understand your needs. RTS licenses include upgrades, hardware and software support, back office management, online ticketing through your website, and direct integration with industry partners.

With 20 years in the business, we work with more than 1500 theatres in the US and Canada. Please visit our website or contact sales for further product information.

Dear Dusti,

As everyone is settling in for the year ahead we have some great new updates.

- www.rts-solutions.com
- Reserved Seating
- Software Changes

Enjoy!

Sincerely,
RTS Team

Reserved Seating

Take the guess work out of choosing a seat at the theatre. Using RTS's reserved seating option allows your patrons to choose their seats in the theatre, enhancing their overall movie going experience. Reserved seating allows a patron to view available seats within a particular show.

- Large graphical buttons for seat selection
- Real time updates
- Graphical display of seat availability
- Multiple seat purchase groups
- Exact seat placement
- Custom floor / seat maps
- Optional customer selection with second touch screen
