Internet Ticketing

What are your options?

There are 4 different options for Internet Ticketing.

- Using a link from your site to an RTN Page
  - Available in a variety of options
- Using Showtimes XML to pull your schedule
  - Available in a variety of options
- Using Open Interface API
- Movietickets.com and Fandango

Options for displaying your ticketing page

Using your given link there are 3 ways you can choose to display your ticketing page.

- In the same window - directed to RTN Page
- In a new window/tab - directed to RTN Page
- Within your navigation in a framed area

Using RTN Page - Window/Tabbed

Link to RTN Page can open in

- Same window
- New tab
- New window

Using RTN Page - Framed

Showtime Page

Tickets Page

Check Out Page

The RTN Ticketing Page is still used, it is just shown embedded within your navigation.

- Framed area will NOT show a secure lock in the browser when choosing this option.
- Options available in RTS to have a secure checkout, page appear in a new secure browser.
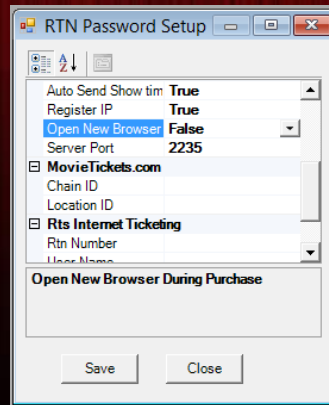

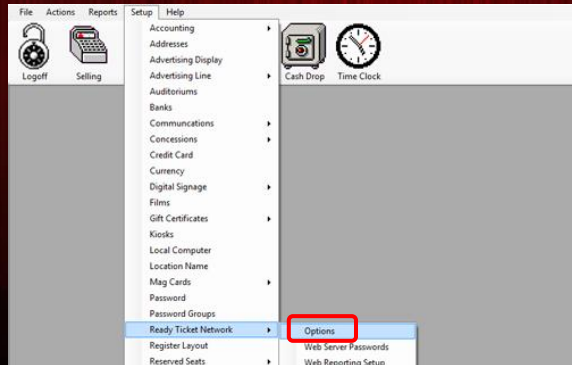

"Open New Browser" needs to be set to "True"
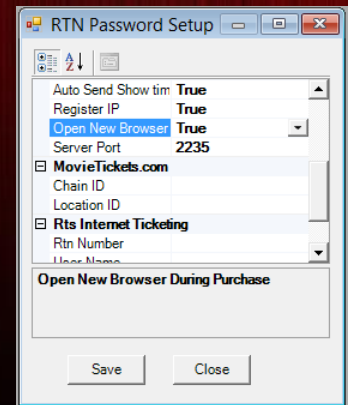

Using Showtime XML

Showtimes are displayed on your site
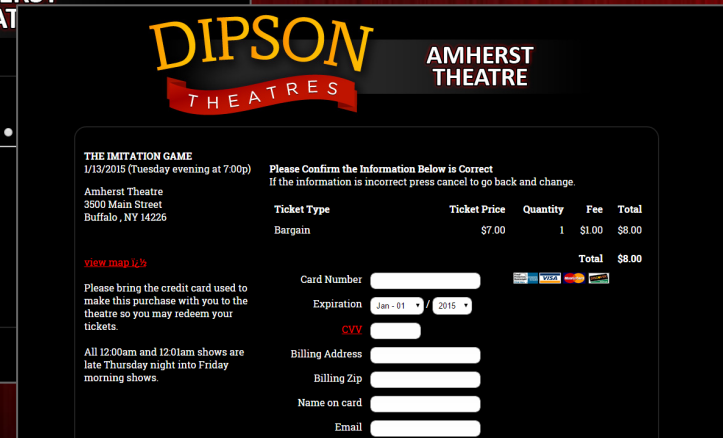

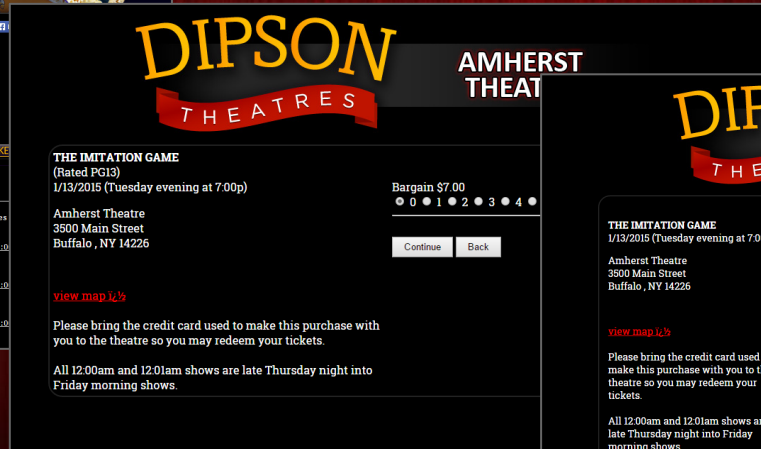

Ticket pick and purchase then handled by RTN Page

Using Open Interface API
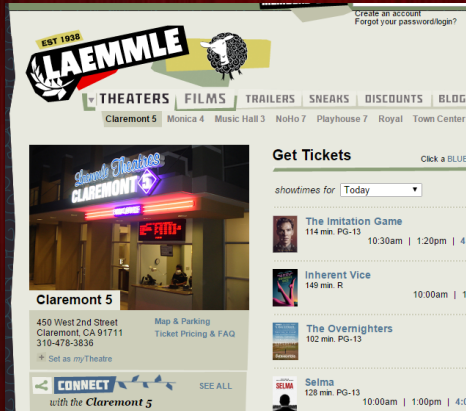

Showtime Page
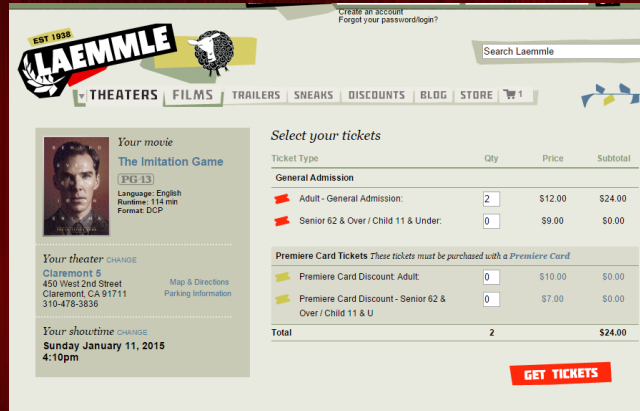

Tickets Page

Check Out Page

This is an option that is built by your web developer, not RTS. We simply supply documentation to retrieve your showtimes, purchasing, loyalty, gift cards, etc.

How do I get the link?

The link to take you to your ticketing page is your theatre id number followed by formovietickets.com:2235 as shown below.

TheatreID.formovietickets.com:2235

Locate your Theatre ID

To locate your ID and to create a link to your tickets/showtimes page, your Theatre ID can be located in RTS by navigating to "Help" -> "About"

Rts Ticketing

Computer Name= OFFICE
User Name=Manager
IpAddress=1.1.1.1
GatewayAddress=8.8.8.8
Dns=1.1.1.1

System Information

Ok
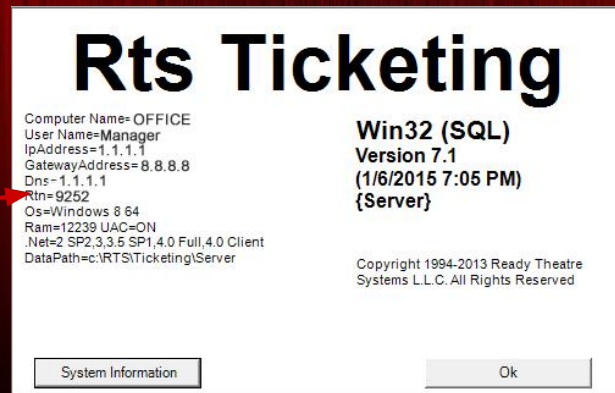

What should your link look like?

TheatreID.formovietickets.com:2235

When your link is selected it will direct you to a page with your showtimes and pricing. Patrons then select their desired time and number of tickets and check out using a secure payment method.
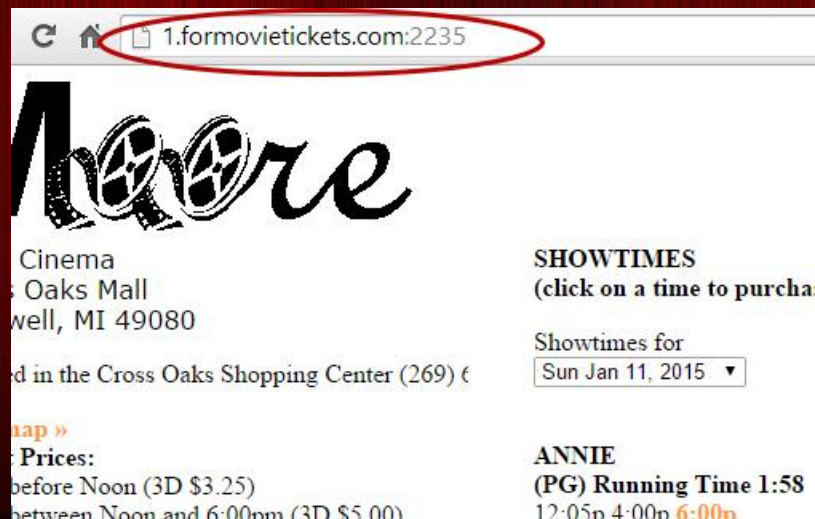

Implementation

This option allows you to sell tickets online using our layout.

- Using the link provided (TheatreID.formovietickets.com:2235) will give your developer all the information they need in order to create a link to your RTN page.

What about the style?

Your web designer creates a HTML Style Sheet, and sends it to RTS Technical Support. Support will then add it to your RTN Page and your newly styled page will be available for your patrons to purchase tickets.

Open Interface-API

This option allows you to create any style, layout, & function that you desire.

- Using the link provided will give your developer all the information they need in order to implement the content.
- Using our API allows you to have your own website pull the schedule built within RTS.
